

Glade® Sense & Spray® Automatic Freshener

Motion sensor Air Freshener

The innovative Glade® Sense & Spray® Automatic Spray detects when you pass by, instantly releasing a burst of fragrance into the air. Equipped with motion sensor technology, it cuts down on waste and conserves refills by automatically freshening only when you need it most.

Benefits

The Glade® Sense & Spray® Automatic Freshener offer a unique fragrance experience that blends attractive design with motion-sensor technology that allows the unit to spray when you pass by.

In order to conserve the refill, the unit also comes with a lockout setting. The lock-out mode for Sense & Spray is 20 minutes.

The units also come with a boost button that can be pressed at any time for an extra burst of fragrance.

Use Instructions

1. Lift front cover
 2. Pull and discard red tab to activate batteries.
 3. Push down front cover to close unit.
- The unit automatically sprays fragrance when a shadow has been cast upon the sensor. The light will blink rapidly for 3 seconds to warn when it is about to spray.
 - After the unit has sprayed, in order to conserve the refill, the sensor will turn off automatically, indicated by the light flashing once every 3 seconds, and will not spray for 20 minutes.
 - After a 20 minute lockout, the unit is in active mode and ready to detect motion.
 - For an instant burst of Glade® fragrance anytime, press the boost button on the front of the unit.
 - Use only Glade® Sense & Spray® refills in this unit.
