

CLEAN HANDS EFFICIENTLY

...using human power!

PROTECTED BUTTONS

BioCote® keeps the dispenser push button fresher and cleaner for longer, protecting it against bacteria and mold.

BATTERY FREE

Our manual dispensers are battery free, reducing the risk of landfill contamination.

HYGIENICALLY SEALED

Hygienically sealed cartridges prevent product contamination as compared to refillable dispensers.

DEPENDABLE

Our dispensers are guaranteed for life*, reliable and worry-free.

CONVENIENT

Empty cartridges are easily discarded and replaced in seconds. 1L Cartridge has a 100% recyclable HDPE plastic body. Pump insert must be discarded in general waste.

COST SAVINGS

No tedious and expensive batteries to replace and maintain.

SC Johnson Professional Dispensers are intelligently designed for efficient manual use. Uniquely protected with BioCote® antimicrobial agent and utilising hygienically sealed cartridges, SC Johnson Professional manual dispensers offer a clean experience from push to palm. The attractively designed, battery-free dispensers are low maintenance, guaranteed for life and reduce washroom costs.

BioCote® silver ion technology is:

Effective: Reduces bacteria, mold and fungi on the surface of BioCote® treated SC Johnson Professional dispenser buttons within as little as 2 hours and achieves up to 99.99% reduction over a 24-hour period**.

Long-Lasting: BioCote® maintains its antimicrobial protection for the lifetime of the dispenser button and will not wash off, wear off or leach out. Technology is incorporated at the time of manufacture into the buttons of all SC Johnson Professional manually operated, wall-mounted skin care dispensers.

** BioCote® is a registered trademark of Biocote Limited

** Manual and Touch Free dispensers are guaranteed for their lifetime. Guarantee applies only in Australia and New Zealand and to dispensers exclusively using SC Johnson Professional® products. Other terms and conditions apply: <https://www.scjp.com/en-au/guarantee>

*** Efficacy is independently validated by ISO methods
